Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claims 1-11 are pending in this application. Amended claims 1, 6, 8-10 are noted.

The amendment dated 3/5/02 has been entered and carefully considered. The examiner appreciates the amendments to the abstract and claims. In view of said amendment, the previous 112 rejection and art rejection have been withdrawn.

Claim Rejections - 35 USC § 112

1. Claims 1-11 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claims 1 and 10, the term "metastable excited state" is deemed new matter as there appears to be no such limitation recited in the original specification.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsui et al. (5,403,630) or Ueno et al. (4,532,199). Matsui discloses a vapor phase growth method of introducing a silicon containing gas and ozone into a reaction vessel along with excited oxygen

Art Unit: 1762

(col.2 lines 4-20). The silicon containing gas can be TEOS or an organic oxysilane and the excited oxygen can be formed by plasma discharge (col.3 lines 42-57). The plasma can be formed by using xenon gas and in a metastable state (col.4 lines 27-65). Ueno discloses a method of forming amorphous silicon film by using ECR (col.1 lines 51-61). The rare gas can be Kr and Xe (col.2 lines 12-14) and can be in the metastable state (col.2 lines 38-49). However, the reference fails to teach generating a plasma of the mixture.

It is noted that the reference does teach of mixing a rare gas with oxygen and exciting the resulting gas mixture (col.4 lines 58-60 and col.3 lines 8-19, respectively). One skilled in the art would realize that the mixture could be excited to form the plasma as taught above. It would have been obvious to one skilled in the art to generate a plasma of the mixture with the expectation of obtaining similar results.

The limitations of 2-11 have been addressed above.

Mori (5,037,666) and Yamazaki et al. (6,183,816) have been provided for additional information.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bret Chen whose telephone number is (703) 308-3809. The examiner can normally be reached on Monday through Thursday from 6:30 am to 5:00 pm.
